

Code block:

```
A plain, simple code block
```

```
Another simple code block  
Just like that
```

Downloadable Code Block - no syntax highlighting:

[text.blah](#)

```
A pretty long code block  
A longer code block  
The longest code block
```

Code Block with Syntax highlighting

```
This is pretty much the same, but you could use it to show that you quoted a  
file.
```

Downloadable Code Block with Syntax highlighting

[java.java](#)

```
/**  
 * The HelloWorldApp class implements an application that  
 * simply displays "Hello World!" to the standard output.  
 */  
class HelloWorldApp {  
    public static void main(String[] args) {  
        System.out.println("Hello World!"); //Display the string.  
    }  
}
```
